TERMS

Various payment options available. Please contact customer relations or your Account Manager for availability and qualification. No minimum order size requirement.

SHIPPING

All packages are shipped according to customer requests. Our default shipping protocol is UPS ground for domestic packages, and UPS express for international shipments.

WARRANTY

We view your business with us as a partnership based on mutual trust.

Our products are made according to the highest standards as a reflection of our commitment to quality, integrity and in accordance with our ISO certification. Therefore, we are glad to extend a Lifetime Warranty against any manufacturing defects on all Sciencix parts. Sciencix defines the lifetime of a part in accordance with the normal expected performance of the comparable (comp.) Original Equipment Manufacturer (OEM) part. Our intention is to provide replacement parts that are comparable to the corresponding OEM part. On the rare occasion that you experience a problem with a Sciencix part, we invite you to contact us and share your problem with us. Every attempt will be made to bring resolution in a way that enhances our relationship with you, our valued customer.

Our warranty claim process is simple. Below is a brief outline of how to initiate a warranty claim.

CUSTOMER

Contact Customer Relations at 800.682.6480 or 952.895.8292, or contact your Account Manager. Provide as much detail as possible about the part in question, such as part number, lot number, date of purchase, etc. Describe the situation in which the performance of the part was unsatisfactory.

SCIENCIX

We will provide you with a Return Material Authorization (RMA) number and then ship a replacement or credit your account.

OUR PROCESS

MATERIALS. GEOMETRY. PERFORMANCE. APPEARANCE.

Understanding the requirements of our customers and the analytical instrumentation industry is at the core of our process for solid product design. It all starts with listening. With years of experience and discussions with a variety of customers, we have distilled what we've learned into the four pillars of our product design process: materials, geometry, performance, and appearance.

Our intent is to provide HPLC and Mass Spec. repair parts that are, in each case, comparable (comp.) to the corresponding OEM part.

To that end, Sciencix has cultivated relationships with many parts and component manufacturing companies that cater to high-tech industries such as analytical instrumentation. Sciencix uses these vendors wherever possible to source parts. Alternatively, we develop the products in-house. This process includes reverse engineering dimensions and materials, prototyping, and testing.

Our desired outcome from this rigorous process is to provide you with the HPLC and Mass Spec. repair parts you need, when you need them — all supplied by friendly, knowledgeable people at a reasonable price. We want you to be completely satisfied with every aspect of your dealings with Sciencix, from order placement through product delivery and performance. Let us know of any issues you have had with any order from Sciencix. We will work with you whether through warranty claims, product replacement or process improvement.

This is our process and guarantee to you!

There are around **33 million** American small businesses, which represent **99%** of all businesses, drive **50%** of total U.S. employment, and generate **40%** of U.S. GDP including \$3 trillion in exports. Every state in the U.S. nominated an Exporter of the Year, from which 10 regional winners were then selected.

★ **From these regional winners, the SBA selected** ★
Sciencix as the 2023 National Exporter of the Year.

*Sciencix President **Raj K. Bhandari, PhD** and Sciencix Vice President of Operations **Ranjan Karki** make history as the first **Nepali-Americans** to be honored at the White House by a U.S. President.*

*Sciencix now proudly serving customers in over 100 countries from our 28,000 sq. ft. **Test Lab Facility in Burnsville, MN** and **Business Headquarters in Cary, NC.***
